EFFECTIVE IN: All areas served retail by the Company.

AVAILABILITY: Available, upon application, in all territory served directly by retail distribution lines of the Company. High Pressure Sodium (HPS) and Metal Halide (MH) fixtures have limited availability and may not be available for new installations or replacement.

APPLICABILITY: Applicable only to outdoor lighting fixtures and poles conforming to Company specifications. Service shall be rendered only at locations that, solely in the opinion of the Company, are readily accessible for installation and maintenance.

PRICES:

A. BASE CHARGE: The monthly rate for each lighting unit installed on an existing pole and using existing secondary circuits is as follows:

Non-Shielded Mercury Vapor Lamps					
OSL Code	Lumens	Specification	Price of Fixture on Existing Wood Distribution Pole	kWh	Watts
MV1	3,600	*	\$3.42	41	100
MV2	7,000	*	\$4.10	71	175
MV3	11,500	*	\$6.89	103	250
MV4	20,000	*	\$8.36	161	400
MV5	40,000	*	\$14.77	272	700

*These lighting fixtures are not available for new installations.

P9	28'-32'	Standard Pole, Other than Wood	\$13.40
P10	33'-37'	Standard Pole, Other than Wood	\$16.70
P11	38'-42'	Standard Pole, Other than Wood	\$20.30
P12	43'-47'	Standard Pole, Other than Wood	\$21.70

Overhead wiring is considered a span of 150' or less.

Underground wiring will be available at the above rate plus \$3.20 per month where the amount of required buried cable does not exceed, on the average, 150' per pole.

An amount payable in advance and without right of refund shall be charged equal to the average installed cost per foot of buried cable in excess of 150' per pole. Where underground wiring is desired, and paving or other obstructions, such as rock, etc., exist, the consumer shall be required to perform all trenching, install duct furnished by the Company, backfill, and complete the paving to the mutual satisfaction of all parties concerned or pay to the Company in advance and without right of refund an amount equal to this additional construction cost.

If a hand-set pole is required due to the inaccessibility of the pole location, an additional calculated charge will be required. This additional charge will only cover labor items, not material. If any additional trenching is required, due to the hand-set pole, the customer is responsible to pay the full cost for trenching including applicable material charges. These charges shall be paid to the Company in advance of construction and without right of refund.

C. ORNAMENTAL TYPE LIGHTING FIXTURES:

The following standard ornamental or decorative type of lighting fixtures with Underground wiring are offered by the Company to supply lighting for specific Applications:

Ornamental Lighting					
OSL Code	Lumens	Specification	Price of Fixture on Existing Wood Distribution Pole	kWh	Watts
OL1	9,500	High pressure sodium contemporary post top luminaire on 19' steel pole (OGE Standard D540)	\$11.32	41	100

Where the amount of required buried cable exceeds an average of 150 feet per Fixture, an amount equal to the average installed cost per foot of buried cable times the footage in excess of 150 feet per fixture shall be paid to the Company in advance of construction and without the right of refund.

ADDITIONAL FACILITIES: If additional facilities other than listed above are required, the customer shall pay an additional monthly charge equal to 1.5% of the installed cost of such additional facilities.

SPECIAL OR NON-STANDARD FACILITIES: Whenever the consumer requests the Company to install special or non-standard facilities hereunder and there is no engineering, construction, safety, legal or practical reason which would, in the Company’s judgment, make such installation inadvisable, the Company will make such installations provided the consumer pays to the Company, in advance and without right of refund, an amount equal to the difference between the installed cost of the special or non-standard facilities and the installed cost of comparable standard facilities. The monthly rate shall be as stated above for the comparable standard facilities.

In lieu of such lump sum payment in advance and subject to approval by the Company, the consumer may elect to pay to the Company a monthly charge equal to 1.5% of the additional difference between the installed costs as stated above.

“Standard facilities” shall mean those facilities approved and shown in OG&E Construction Standards.

RIDERS: Applicable Riders which adjust this Rate Schedule are listed in Rate Schedule No. RSR, Tables of Riders Applicable to Rate Schedules.

INSTALLATION OF UNITS: The Company’s standard lighting fixture shall consist of the following type and size. Other types and sizes of lighting fixtures shall not be available for new installations:

Lumens	Type
9,500	High Pressure Sodium
15,500	High Pressure Sodium
25,000	High Pressure Sodium
50,000	High Pressure Sodium
140,000	High Pressure Sodium
14,000	Metal Halide
21,000	Metal Halide
36,000	Metal Halide
100,000	Metal Halide

GENERAL PROVISIONS:

- 1) The customer shall furnish to the Company, without cost to the Company and on forms suitable to, all rights, permits and easements necessary to permit the installation and maintenance of the Company's facilities on private property where and as needed by the Company in providing service hereunder.
- 2) The facilities furnished by the Company shall remain the property of the Company.
- 3) The facilities for lighting shall be installed at a mutually agreeable location on the consumer's premises. The location shall be accessible to Company trucks when the length of the support bracket exceeds four feet, the luminaire exceeds 11,500 lumens or the pole is of such type or material which will not permit the use of lineman's climbers.
- 4) In the case which would necessitate an excessive expenditure for a long extension or special facilities, the Company may require a guarantee of revenue or a prepayment sufficient to justify the necessary expenditure.
- 5) Replacement of existing, non-failed operational non-shielded lighting fixtures will be based upon several factors. These factors will include, but are not limited to: length of service of replaced fixtures; the number of replacements; and the quantity of overtime, equipment and costs required in making the replacement(s). Replacement and removals requested by the customer will be made on a schedule agreeable to all parties. If the quantity of replacements or removals cannot be completed with normal resources in the time frame requested, the Company may contract with additional resources to meet the requested time frame. All costs that are above normal lighting operating, maintenance, and replacement will be considered and may be collected from the requesting party. The requesting customer will be informed of any additional cost prior to the change-out or removal.

The Company will use reasonable care to maintain such service, but the Company will not be obligated to patrol to determine required lamp replacement or other maintenance of the facilities used for service under this schedule. Upon notification of any outage or required maintenance of such facilities, the Company shall be allowed a reasonable length of time to restore normal service during regular working hours.
