

STANDARD PRICING SCHEDULE: OF-2 **STATE OF OKLAHOMA**
NET ENERGY BILLING OPTION

**STANDARD RATE SCHEDULE
FOR NET ENERGY BILLING FOR PRODUCERS OF 100 KW OR LESS**

EFFECTIVE IN: All territory served.

AVAILABILITY: Net Energy Billing is available to all qualifying cogenerators and qualifying small power producers who:

- 1) Have an annual energy output of 25,000 kWh or less. Producer shall provide engineering evidence documenting the annual energy output calculation at the Company's request. In the case of a wind power Producer, the estimated annual energy output of 25,000 kWh or less shall be determined using the American Wind Energy Association (AWEA) Annual Energy output formula (AWEA Standard 1.1 - 1985, Section IV, paragraph 2) and a wind speed of 12 miles per hour; AND
- 2) Employ equipment compatible with the particular line segment of the Company; AND
- 3) Sign the Company's Standard Electricity Purchase Agreement (PA) for Small Power and Cogeneration Facilities as attached to this tariff.

PURCHASE PRICE:

For electricity produced in excess of on-site requirements, the Producer shall be compensated by the retail purchase meter running in reverse. The Company shall bill the Producer for the excess of energy supplied by the Company over and above the energy supplied by the Producer during each billing period according to the Company's applicable time-of-use retail rate schedule including any applicable standby services tariff.
