

**STANDARD PRICING SCHEDULE: REP  
RENEWABLE ENERGY PROGRAM**

**STATE OF OKLAHOMA**

**ANNUAL SUBSCRIPTION LEVELS AND PRICES:**

Customers may elect to subscribe to one of the following levels.

| 2024 PRICING |                             |                   |
|--------------|-----------------------------|-------------------|
| Level        | Percent Of Annual kWh Usage | REC Price Per kWh |
| A            | 25%                         | \$0.0047 per kWh  |
| B            | 50%                         | \$0.0042 per kWh  |
| C            | 100%                        | \$0.0037 per kWh  |

Customers who subscribe to Level A or B will receive a fixed price per month based on their previous year’s average monthly usage, or:

$$\text{Fixed Monthly Amount} = \text{Average Monthly usage} \times \text{REC } \$/\text{kWh}.$$

Customers who subscribe to Level C will be billed for their current month’s usage at the posted price per kWh.

Non-residential customers who agree to a minimum annual purchase of at least 100 MWh may elect to subscribe at the following prices in 1 MWh increments.

| 2024 PRICING |                             |                   |
|--------------|-----------------------------|-------------------|
| Level        | Minimum Annual MWh Purchase | REC Price Per MWh |
| D            | 100                         | \$3.70 per MWh    |

Customers who subscribe to Level D will receive a fixed price per month based on their subscribed average monthly MWh, or:

$$\text{Fixed Monthly Amount} = \text{Subscribed Average Monthly MWh} \times \text{REC } \$/\text{MWh}.$$

The Renewable Energy Program kWh available for subscription in 2024 is 654,800,000 kWh.

**Rates Authorized by the Oklahoma Corporation Commission:  
(Effective) (Order No.) (Cause/Docket No.)**
